

ATTENTION PEBBLE SHORES RESIDENTS

It is important for community leadership and all members to be proactive in taking preventative measures, when possible, to minimize the risk and spread of COVID-19. Your board has been consistently focused on this issue for the past 6 days. The board has repeatedly consulted the management and legal professionals who we pay to provide us with guidance. Their recommendation for the actions outlined below has been unanimous. Your board will consult regularly with these professionals with a view to re-opening these important facilities as soon as the community health situation has sufficiently improved.

Effective March 29 the clubhouse, pool & spa will be closed until further notice

- Members are requested to voluntarily limit the number of guests or visitors invited into the community. All members are reminded to provide Waterways with updated emergency contact information.
- Your board will minimize and limit social gatherings or meetings with a large number of attendees. Until further notice all board meetings will be held via telephone conference calls coordinated by Waterways. The monthly board meeting schedule will remain as posted. Owners wishing to participate are requested to contact Waterways for dial-in coordinates. Board meeting agendas will continue to be posted on Pebble Shores bulletin boards and pebbleshores.org 48 hours in advance.
- All members are reminded to wash their hands frequently and employ heightened hygiene standards.
- Everyone in the community is reminded to rigorously maintain mandated social distancing (6 ft or more).
- Regular maintenance will continue but discretionary projects will be suspended to help minimize outsider traffic within our community.
- Owners are reminded to be mindful of preventative measures when inviting any outside vendors or contractors into the community.
- Any personnel employed by the association or contractors are advised to stay home if they feel ill, and only return to work after being cleared by a doctor.

Thank you
